creating optical solutions

Product name	HF50XA-5M
Focal length	50mm
Aperture range (F no.)	F2.4-F16
Angle of view (H x V) * When mounted to a camera with the standard 2/3-inch sensor	10.4°×7.8°
Focus range (distance from the front lens element) (mm)	∞-200
Operation method	Focus Manual
	Iris Manual
Filter thread	M30.5x0.5
Mount	C Mount
Compatible sensor size (standard)	2/3-inch (3.45μm)
Compatible sensor size (maximum)	1.1-inch (4.5μm)
TV distortion (%) * When mounted to a camera with the standard 2/3-inch sensor	0.01
External diameter (mm)	φ33×66.5
Weight (approximate) (g)	95
