

# Vision Light Tech

creating optical solutions

|                        |                 |
|------------------------|-----------------|
| Focal Length:          | 3.8mm           |
| Image Size:            | 1/2.3"          |
| Aperture (F) :         | F2.8            |
| Resolution:            | 16MP            |
| Thread Size:           | M12*P0.5        |
| Distortion:            | -2.8%           |
| MOD:                   | 0.2M            |
| Image Circle (Max):    | Φ8.1mm          |
| CRA:                   | 16°             |
| Relative Illumination: | 40%             |
| Structure:             | 8G+BG           |
| BFL:                   | 5.59mm          |
| FBL:                   | 2.49mm          |
| Dimensions:            | Φ 17.5 x21.05mm |
| Sensor:                | CCD/CMOS        |
| TTL:                   | 25.3mm          |
| FOV(D/H/V):            | 95° /82° /65°   |
| Iris:                  | Fixed           |

|        |          |
